JAKOB M. HELTON

jakobhelton@psu.edu ◇ +1 (304) 360 0337
jakobhelton.github.io ◇ orcid.org/0000-0003-4337-6211
Department of Astronomy and Astrophysics, The Pennsylvania State University

SUMMARY & SCHOLARLY IDENTITY

Funding – roughly **$950,000** in grants/awards secured over the past **2** years as PI

Publications – **8** first author, **5** second author, **104** in total (**10,595** citations, $\boldsymbol{h = 46}$)

Research Interests – galaxy formation and evolution; high-redshift galaxies and galaxy clusters; the large-scale structure of the Universe; observational extragalactic astronomy

Professional Expertise – infrared imaging and spectroscopy with JWST (designing and optimizing observing strategies, developing data reduction pipelines, and implementing analysis techniques); panchromatic spectral energy distribution (SED) fitting

Collaborations – JWST/NIRCam Instrument Science Team; JWST/MIRI Instrument Science Team; the JWST Advanced Deep Extragalactic Survey (JADES) as the working group lead for grism science, including the large-scale environment

Observing – PI/Co-I of numerous programs working with NASA flagship space missions (Roman, JWST) and ground-based observatories (ALMA, Keck, Magellan, MMT)

EMPLOYMENT

The Pennsylvania State University *August 2025 - Present*
Position – Evolving Universe Postdoctoral Fellow *[Mentor – Joel Leja]*

EDUCATION

The University of Arizona *August 2021 - July 2025*
Degree – Ph.D. and M.S. in Astronomy and Astrophysics
Thesis – *At the Break of Cosmic Dawn: Identifying and Understanding the Most Distant Galaxies and Galaxy Clusters with JWST* *[Advisors – Marcia Rieke; Kevin Hainline]*

Princeton University *September 2017 - May 2021*
Degree – A.B. in Astrophysical Sciences with High Honors
Thesis – *The Nebular Properties of Star-Forming Galaxies at Intermediate Redshifts from the Large Early Galaxy Astrophysics Census* *[Advisors – Allison Strom; Jenny Greene]*

Summary of All Publications number: 104; citations: 10,595; h-index: 46
Summary of Refereed Publications number: 73; citations: 10,176; h-index: 44

List of All Publications *Continues Later, Starting on Page 5*

TELESCOPE ALLOCATIONS

Observing Programs as Principal Investigator (PI) or Co-PI

*Nancy Grace Roman Space Telescope (**1** program, archival/analysis, with $**450,000** in funding received):* Cycle 1 Analysis #19100

*James Webb Space Telescope (**3** programs, **117.2** hours, $**499,627** in funding received):* Cycle 5 GO #11376; Cycle 4 GO #08544; Cycle 3 GTO #04549

*MMT Telescope (**1** program, **2.0** nights using Binospec)*

Observing Programs as Co-Investigator (Co-I)

*Nancy Grace Roman Space Telescope (**2** programs, archival/analysis, with $**300,000** in funding received)*: Cycle 1 Analysis #19082; Cycle 1 Analysis #19067

*James Webb Space Telescope (**14** programs, **590.3** hours of primary telescope time and **1000.0** hours of pure parallel time, with more than $**2,500,000** in funding received):* Cycle 5 GO #12396; Cycle 5 GO #10790; Cycle 5 GO #10518; Cycle 5 GO #10445; Cycle 5 GO #10311; Cycle 4 GO #08018; Cycle 4 GO #07935; Cycle 4 GO #07335; Cycle 2 GO #03659; Cycle 2 GO #03577; Cycle 2 GO #03215; Cycle 2 GO #02959; Cycle 2 GO #02883; Cycle 3 GTO #04540

*Atacama Large Millimeter/sub-millimeter Array (**2** programs, **33.4** hours of primary telescope time):* Cycle 10 #2023.1.00391.S; Cycle 10 #2023.1.00336.S

*Magellan Telescopes (**2** programs, **11.5** nights using FIRE and IMACS)*

*Keck Telescopes (**1** program, **0.5** nights using MOSFIRE)*

*MMT Telescope (**1** program, **3.0** nights using Binospec)*

STUDENTS SUPERVISED

Graduate Students

Marta Laska (The Pennsylvania State University, primary supervisor)

Undergraduate Students

Natasha Patel (The Pennsylvania State University, supervising honors thesis)
Tristen Shields (The University of Arizona, now a graduate student at Yale University)

SERVICE & LEADERSHIP

Telescope Allocation Committees – *Subaru Telescope; ALMA (distributed review)*

Invited Peer Reviewer – *The Astrophysical Journal (ApJ); Monthly Notices of the Royal Astronomical Society (MNRAS); Astronomy & Astrophysics; Astronomy & Computing*

Member – *Climate and Diversity Committee (PSU Astronomy)* *Oct. 2026 - Present*
Member – *Graduate Program Committee (PSU Astronomy)* *Sep. 2026 - Present*
Mentor – *Mentoring Program for ECRs (PENGUIN)* *Aug. 2026 - Present*

Leader – *Working Group, Grism Science (JADES Collaboration)* *Aug. 2024 - Present*
Organizer – *UofA's Extragalactic Seminar (EURECA)* *Jun. 2023 - Jun. 2025*
Mentor – *Summer Research Program (Carnegie Obs.)* *Jun. 2020 - Jun. 2025*
Organizer – *Princeton's Galaxy Seminar (Galread)* *Jan. 2020 - Aug. 2020*

TEACHING EXPERIENCE

ATOMM, Astronomy Tutoring For Majors *(Tutor, UofA)* *Jan. 2025 - May 2025*

ASTR333, Astronomy and the Arts *(Teaching Assistant, UofA)* *Jan. 2024 - May 2024*

PHY103, Physics I, Mechanics *(Teaching Assistant, Princeton)* *Sep. 2019 - Jan. 2020*
PHY104, Physics II, E&M *(Teaching Assistant, Princeton)* *Jan. 2019 - May 2019*

MAT202: Linear Algebra *(Head Tutor, Princeton)* *Jan. 2018 - May 2021*
MAT201: Multi-Variable Calculus *(Head Tutor, Princeton)* *Jan. 2018 - May 2021*
MAT104: Single-Variable Calculus *(Head Tutor, Princeton)* *Jan. 2018 - May 2021*
MAT103: Single-Variable Calculus *(Head Tutor, Princeton)* *Jan. 2018 - May 2021*

JADES | 30 May 2024
Earliest, most distant galaxy discovered with James Webb Space Telescope Galaxy dates back to 300 million years after the Big Bang

SELECTED PRESENTATIONS

† = invited presentation

JWST Conference, "Towards the Full Bloom"	*Tokyo, Japan; Mar. 2026*
† University of Pittsburgh's AstroLunch Seminar	*Pittsburgh, PA; Mar. 2026*
† Monday Afternoon Talk at MIT's Kavli Institute *[virtual]*	*Cambridge, MA; Feb. 2026*
† Five College Astronomy Department's Colloquium	*Amherst, MA; Feb. 2026*
† North Houston Astronomy Club (outreach) *[virtual]*	*Humble, TX; Aug. 2025*
† Meeting for NIRCam Instrument Science Team	*Tucson, AZ; Mar. 2025*
† Meeting for MIRI Instrument Science Team	*Tucson, AZ; Oct. 2024*
† JWST Conference, "Cosmic Dawn Revealed"	*Santa Barbara, CA; Aug. 2024*
† Sun City Oro Valley Astronomy Club (outreach)	*Oro Valley, AZ; Mar. 2024*
AAS Meeting #242 (poster)	*Albuquerque, NM; Jun. 2023*
† Steward's Celebration, "100 Years of Astronomy"	*Tucson, AZ; Apr. 2023*
JWST Conference, "A New Era in Astronomy"	*Cambridge, England; Mar. 2023*
† Canyon del Oro High School (outreach)	*Oro Valley, AZ; Dec. 2022*
IAU Symposium #373 (poster)	*Busan, South Korea; Aug. 2022*
AAS Meeting #237 (poster)	*Virtual; Jan. 2021*
AAS Meeting #235 (poster)	*Honolulu, HI; Jan. 2020*
Princeton University Research Day (poster)	*Princeton, NJ; May 2019*
Stanford University Research Conference (poster)	*Stanford, CA; Apr. 2019*
Meeting for Drexel University's Quasar Day	*Philadelphia, PA; Feb. 2019*

MISCELLANEOUS

Programming Languages – Python; IDL; Java; JavaScript; HTML/CSS

Packages, Software, & Tools – Unix; LaTeX; `Prospector`; `BAGPIPES`; `Cloudy`; JWST's Pipeline, Exposure Time Calculator (ETC), and Astronomer's Proposal Tool (APT)

Observational Experience – JWST/MIRI (using the Low Resolution Spectroscopy, or LRS, observing mode); JWST/NIRCam (using the Wide Field Slitless Spectroscopy, or WFSS, observing mode); Keck/MOSFIRE; Magellan/IMACS; Magellan/LDSS3

Soft Skills – academic research; problem solving; public speaking; technical writing
